# Using IPM in Maize

Irrigated Cropping Council

**GRDC**

GRAINS RESEARCH  
& DEVELOPMENT  
CORPORATION

## Friday 14 January 2022

- 9:30am Ian & Mary Hamono's place on Brewer Rd, Cooma (meet in the maize paddock along Brewer Rd just before the dam)

We will using a drone to apply the following to a maize crop to control Two-spotted mite:

- Persimilis predatory mites

All welcome to come along and learn about using alternative methods and technology to control insect pests in maize.
