

What does net zero mean for irrigator and mixed business farmers?

A webinar opportunity to hear from, and ask questions of our qualified speakers, on the topic of what the impact of the 2050 Net Zero target will be, in particular for irrigator and mixed business farmers.

Date and Time:

Thursday 16th June 2022
8:30 - 9:30 am

Registrations essential at

<https://irrigatedcroppingcouncil.com.au/events/>

or contact Belinda

Belinda.Lambert@irrigatedcroppingcouncil.com.au

Why is it important?

What does it mean in regard to our farming activities, our practices and our future strategies?

What can farmers do to prepare, even with incomplete information?

Dr Kate Burke is an agri-strategist, author and keynote speaker with specialist knowledge in the science and strategy of broadacre farming and direct investment in farmland. Kate regularly contributes to The Guardian Newspaper Rural Network and Rural Business Magazine and recently published Crops People Money and You, The Art of Excellent Farming and Better Returns

Kate was the 2021 recipient of the GRDC Seed of Light

Dr Cassandra Scheffe is a leading soil science researcher working across the spectrum from in-paddock to academic research, and Lead of the "Cool Soil Initiative", an industry program to support reductions in GHG emissions in cropping, in partnership with Mars Petcare, Kellogg's, Manildra Group, Allied Pinnacle, CSU, Food Agility CRC and the Sustainable Food Lab, USA.
